## Nermeen Hamdy completed Music Improves Behaviour & Brain Connectivity in Autism Workshop

Facilitated by Melissa Tan MA, RP, MTA, NMT-F

### Learning Objectives

1. A brief introduction to Autism and its link with Music and its effects on the Brain
2. To understand the benefits of musical interventions for social communication, especially with the ASD population
3. To be able to implement musical interventions with various client groups whose therapeutic goals are within social communication
4. To understand the value of integrating research with clinical work to provide support for use of music therapy for autism as a research-based practice

Completed April 13 2019, in Oakville, Ontario, Canada

Course breakdown: 3hour interactive workshop plus "PDF take home tools & resources"

Completion of this workshop does not ensure that the participant is currently a Board Certified Music Therapist (MT-BC).  
Verify music therapy board certification status at [www.cbmt.org](http://www.cbmt.org) or [www.musictherapy.ca](http://www.musictherapy.ca)
